The time period for reply, if any, is set in the attached communication.

Office Action Summary	Application No. 10/751,266	Applicant(s) TSUGITA ET AL.	
	Examiner Kevin T. Truong	Art Unit 3734	

-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Continued Examination Under 37 CFR 1.114

1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on 02/20/2009 has been entered.

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

2. Claims 79-83, 107-108, 121-127, and 129-152 are rejected under 35 U.S.C. 102(e) as being anticipated by Shaknovich et al. (U.S. 5807398).

Shaknovich disclosed substantially as claimed in figures 1-8, a sleeve (7) adapted to be disposed substantially at a distal end of the filter device (16, as shown in fig. 8), wherein the sleeve (7) being adapted to apply a restraining force to the plurality of struts of the filter device (16) to prevent it from extending outwardly; an actuating member (located at 15) coupled to the sleeve (7) and

being connected to the filter device (16) and move relative to sleeve (12,13) to release the filter device (42); a balloon (8) mounted on the outer surface of sleeve (7) is clearly capable of being sized to be inserted into a stenotic lumen of a blood vessel and being expanded such that the stenotic lumen of the blood vessel is less stenotic after expansion of the balloon (8); and wherein stent (3a,3b) mounted on the balloon (8). Note that the filter device (16) can be formed of mesh configuration.

Response to Arguments

1. Applicant's arguments filed 02/20/2009 have been fully considered but they are not persuasive. Applicant's arguments with respect to claims 79, 107, 129, and 145 have been considered but are moot in view of the new ground(s) of rejection.

Conclusion

2. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Shaknovich (US 5669924) disclosed a stent assembly in combination with a filter.
